PEDIATRIC DENTISTRY AND ORTHODONTICS

At Scarsdale Pediatric Dental, our objective is to provide exceptional quality dental care in a compassionate, caring, and safe atmosphere. We are dedicated to caring for children of all ages including infants, toddlers, adolescents, young adults and special needs patients.

**L to R: Pediatric Dentistry:** Dr. Wayne Turk, DMD, Dr. Ann Lambert, DDS,  
Dr. Lisa Patchen, DDS, Dr. Angela Boudounis, DDS  
**Orthodontics:** Dr. Kathleen Lambert, DMD

Our pediatric specialists and staff love children, and are specially trained to put them at ease. We teach children the proper way to take care of their teeth; just as important, they learn that going to a dentist can be fun.

When you visit our office, your child's dental health is our top priority. Our entire team is dedicated to providing your family with the highest quality, personalized and gentle care that they deserve.

Our goal is simple — we want your child to have the most pleasant experience to achieve the benefits of healthy teeth and gums for a lifetime.

## Why Scarsdale Pediatric Dental?

- Pediatric specialists study an additional 2-3 years after dental school—all board certified
- Cutting edge technology including minimal radiation digital x-rays
- Comprehensive and customized treatment plans
- Mercury-free tooth colored fillings
- In-office nitrous as well as hospital sedation utilizing pediatric anesthesiologists
- State of the art sterilization systems
- Seamless integration of orthodontic and dental care—you benefit from a team approach
- Continuity of staff with 12 years average employment plus several team members in the practice over 25 years
- Emergency on call services 24/7/365 for our patients
- Open convenient hours—Monday through Saturday
- Serving the Scarsdale community for over 40 years—many parents were once patients here themselves

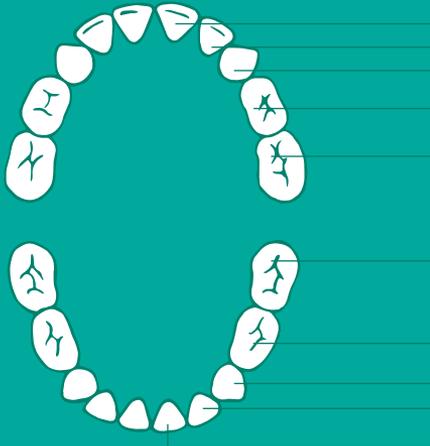

Many of the challenges of pediatric dentistry relate not only to technical skill, but also making children feel comfortable and less anxious.

The American Academy of Pediatric Dentistry strongly recommends establishing a “Dental Home” by the age of one.

We strive to make the dental journey for your child a fun and rewarding experience.
